Company Brief

The ROCKWOOL Group

The ROCKWOOL Group is amongst the global leaders within the insulation industry with products and solutions for all major application areas for both residential and non-residential buildings. It is also the world's leading producer of innovative products and systems based on stone wool. The ROCKWOOL Group was founded in 1937, and its head office is located close to Copenhagen. More than 11,000 employees in nearly 40 countries cater for customers in a big part of the world. In 2014, the Group generated sales of approximately CNY 15,500 million. The company is listed on the NASDAQ OMX Nordic Exchange Copenhagen.

The Group ensures energy efficient and fire-safe buildings with good acoustics and a comfortable indoor climate. We also create green solutions for the horticultural industry, special fibres for industrial use, effective insulation for the process industry and marine & offshore as well as noise and vibration systems for modern infrastructure.

The Group's operations have a large presence in Europe and we are expanding production, sales and service activities in Russia, North America, India and East Asia. Together with a broad network of business partners, this ensures the global presence of the Group's products and systems.

ROCKWOOL's Mission

ROCKWOOL's mission is to protect life and sustain the environment by making buildings fire safe, energy efficient and comfortable. In doing so, we help create solutions for buildings that protect people from the cold, heat, risk of fire and unwanted noise while protecting the environment from the impact of buildings by reducing the energy consumed and lowering carbon emissions.
